INTENSIVE HANDS-ON CONTINUING MEDICAL EDUCATION COURSES
SEPTEMBER 2010 – PHOENIX, AZ

Percutaneous Endoscopic Gastrostomy

Friday, September 24, 2010 4pm-9pm

Percutaneous Dilational Tracheostomy

Saturday, September 25, 2010 8am-5pm

Join us at Science Care's state-of-the-art medical training facility in Phoenix, Arizona for an INTENSIVE HANDS-ON educational experience that has been associated with a direct impact on patient outcomes.

Who should attend? Both courses were planned to meet the needs of pulmonary/critical care physicians, surgeons, and other health care professionals who manage critically ill patients.

Learning Objectives: Participants will be able to identify appropriate candidates for each procedure, manage complications, and demonstrate proper procedural preparation and technique. In addition, participants will review privileging, credentialing and billing procedures that can immediately be applied to your practice.

Past course attendees have stated:

"Enjoyable education that will change my practice." –....., MD from Studio City, CA

"Excellent, very focused, and covered clearly. The speakers were good teachers with lots of experience."

–....., MD from Greenville, NC

**Don't miss out on this exceptional learning opportunity
SPACE IS LIMITED TO 20 PARTICIPANTS, REGISTER NOW!**
